Shuttles TBD

## Welcome to the 2019 Packaging Jamboree!

Hosted by the Packaging Systems and Design Club at Virginia Tech  
Old Dominion Ballroom for opening reception  
at Squires Student Center

Tuesday, April 2nd-Thursday, April 4th

This year's theme is:

## iPackage

Global trends of emerging packaging technology. As the world shifts to the realization of an autonomous economy, companies are noticing this trend and implementing them in their own style.

**Virginia Tech Packaging thanks  
Dr. Mark White**

MARSHALL S. ( MARK) WHITE, Professor Emeritus at the Virginia Tech, Department of Sustainable Biomaterials, Blacksburg, Virginia, and a graduate of Colorado State University and Virginia Tech with B.S., M.S. and Ph.D. degrees in Wood Science and Forest Products. He is past Director of the Pallet and Container Research Laboratory and Center for Unit Load Design at Virginia Tech. He established the Packaging Systems and Design undergraduate and graduate programs at Virginia Tech in 2006. He served as Chair of the ANSI/MHI committee on pallet Standards and Head of the US delegation to the ISO TC 51 committee on International pallet standards. He is the 2018 recipient of the R. David LeButt Award by the International Safe Transit Association for “...excellence and continuing education in Package Design and Testing”.

Campus and Packaging	9:30am-10:30-am
Lab Tour	
Closing Remarks /	10:30am
Send-Off	

**Virginia Tech Packaging thanks  
Mr. Don Woodward**

Don Woodward has served as the General Manager at Packaging Corporation of America (PCA) in Roanoke, VA for over 34 years. Mr. Woodward’s career with PCA started in 1974 by obtaining a job in the receiving department (formerly known as Dixie Container Corporation) in High Point, NC. The General Manager (GM) at the time was a great entrepreneur who recognized dedicated workers and quickly became Mr. Woodward’s mentor. After 6 months, Mr. Woodward was promoted to Customer Service/Design where he was afforded the opportunity to learn many aspects of the business including production, design, customer service, and sales. In 1984, at only 28 years old, Mr. Woodward was given the opportunity to become the GM of the Roanoke, VA facility. The Roanoke facility started out with only 20 employees and a very small, local customer base. Over the next few years, Mr. Woodward and his service-oriented team helped the Roanoke facility grow to over 50 employees and become a highly successful supplier in their market. Now, PCA Roanoke has over 100 dedicated employees and a very diverse customer base stretching over several states. PCA’s partnership with VT has brought valuable talent to the team, which continues to enhance PCA’s growth and success in a competitive market.

Mr. Woodward is a native of Southwest Virginia, but spent most of his youth in North Carolina. When he is not busy running the Roanoke facility, he enjoys playing golf, maintaining his antique car collection, and spending time with his friends and family, especially his two-year old granddaughter
